

My name is Beverly Deroy from the Deliverance Church of God 7<sup>th</sup> Day. I would like to take this opportunity to thank all of you for your support during 2015. Your presence has been a great blessing to us. May God bless and keep you all and your families always.

I'm sending you this message today out of the depth of my heart to let you know we care about you all. As you all know, I've been telling you in so many ways about the Love of God and where you're going to spend eternity. We are all God's people and he wants us not just to go to church; he wants us to know his Words and to do them.

I'm pleading with you today to know God's Word for yourself. To know God's Word and to do it is the only way you can make it into God's kingdom. You don't want to lose out like the five foolish virgins. Run from false teaching and study God's Word for yourself so you can know the truth.

Many people go to church because of friends or for music or because they like the pastor, but we should go there to worship God and to give him the glory, praise and honour he deserves. Many of us, when we go to church and the music starts, do a lot of aerobic exercise, but God does not get the praise. It's high time to get your soul ready. It's no joke. Remember when all is said and done, at the end it will be only God and you, not your money, not your job and not your children.

He loves you so much that it will cause him pain to say to you, "Depart from me! I know you not, but the life you live will be the pay you get".

All of us want to live with God, to spend Eternity with him, but we have to live for him. Don't take living for God lightly, for it will be the most important thing you'll ever do!

Remember, this world is not your home, but you will go one day to your home. There is no question about that. You may be rich or poor. No matter what you have, if you don't obey God, you're on the wrong side. Read John 3:16. It talks about how much God loves you. He's a compassionate God and he will never fail you, if you put your trust in him.

We are just a few folks here, trying to make a difference and trying to live the word of God. That's what it's all about. This world will be a better place if we just follow the Words of God and do them. Then we can say, like Paul, on our last day of live, "We have fought the good fight. We have kept the faith. We have done our best. We have obeyed his Word." It will please our Heavenly Father to say, Come, be blessed into my Everlasting Kingdom." He has gone to prepare a place for you and will be coming back to receive you.
